

Please do not over turn this law. I have never heard of a telemarketing company that abides by the rules. They are not supposed to call before 9:00 in the morning or after 9:00 at night, but frequently I have received calls before and after those times. I actually received a call from a telemarketer at 10:30 PM on a Sunday night. That is absurd, especially since I am up at 4:30 AM for work.
